Subject: RE: URGENT - INCOMING CALLER

Should we do a hot topic on this?

Sandy

Sandy Stavnes

FYI. This is related to the VB/I-70 OU1 deletion, which I believe you have in your in-box.

OK, Joan has been calling me too this morning.

Joan has not been participating with the CAG, so she's not up to speed. She is listening to Bridget Walsh, who is part of the CAG and who misrepresents everything intentionally.

Jesse has been talking to the CAG about this pending NOID since last summer. Most recently, Steve Wharton was at one of their CAG meetings in November further discussing it with them.

They are well aware that the State is on board and that the NOID is coming. They also know that there is ample time for them to comment when the comment period starts which should be in about a week or so.

They are convinced that there is contamination at depth in residential yards and we should not be delisting. They are getting frustrated because the NOID is going forward.

It's not that they don't know about what's going on, it's that they don't agree with what's going on.

We will be meeting again with this CAG on Thursday December 18.

FYI,

Obviously, this is something we communicated to the public quite a while ago.

RE: Vasquez SF site delisting – CAG up in arms, no one requested their input or had a community meeting to inform.

Group is NOT happy, determined to send a letter to RA.

They have, or saw, a copy of the letter from CDPHE to EPA dated Oct. 12 that indicates they agreed to the delisting, but why no communication with the community?
